Dear Mr. Childs:

Re: Completeness review for publication, Permit Revision for State Leases ML-21568 and ML-21569, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032/90-2, Folder #3, Emery County, Utah

The Division has conducted an Initial Completeness Review for publication on the State Lease revision received on December 7, 1990. Additional information and maps were provided to David Darby on January 19, 1991 during a site visit. Upon reviewing all of the information it has been found to be adequate to determine the revision application package administratively complete.

A technical review of the plan has been initiated. Technical deficiencies will be forwarded to you as individual reviews are completed. Issues raised will need to be resolved prior to revision approval.

At this time the applicant should publish a Notice of Application for Permit Revision as required by R614-300-121. The affidavit of publication should be sent to the Division as soon as it is available. The Division will notify all other interested agencies and allow for their comment prior to making a final decision to approve or disapprove the revision application.

Please feel free to contact me or Dave Darby if you have questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
